## PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

## SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size,* heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes,* or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

*Note.*—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume 1 will be ornamented with an excellent Portrait of Sir Walter Scott.

CONNER & COOKE,
*Franklin Buildings, corner of Ann and Nassau streets, New York.*

DAILY PITTSBURGH GAZETTE.

TUESDAY AFTERNOON, SEPT. 24, 1833.

TRADE OF CLEVELAND.—The following extracts, from the Cleveland Herald, merit the most serious attention of the citizens of Philadelphia, and of Pittsburgh, and Pennsylvania. Having lately devoted so much of our columns to this subject, we will not run the risk of tiring the patience of our readers, and submit these extracts, without further comment.

"*Western Trade.*—The great increase of commerce on these Lakes, is beginning to excite the attention of the citizens of New York, Pennsylvania, and Maryland. It is but a short time since that vessels of any description, sailed Lake Erie; and, but a few years since, the first Steam Boat entered our harbor. But how great and important has been the change since that period.—Now, the Lake is white with canvass—steam boats of any number, and of the largest class, finished in the first style, administer to the comfort and accommodation of the community. The amount of business done upon the Lake, until within a few years past, was so inconsiderable, that it excited little or no interest in the public mind. The construction, however, of the Ohio Canal, and the opening of other avenues of commerce, have given an impetus to business, and opened a new field of enterprize, that have produced results which, while they have been fully realized by our own citizens, are beginning to be duly appreciated by those of other States." * * *

"The resources of the West are but *partially developed*—the country is new, and but sparcely populated; and, if such important advantages have been already realized, what may we anticipate for the future. In the year 1825, the number of vessels which arrived at this port, was 75. Of these, 21 were steam boats. The value of the articles exported that year, amounted to only 50,166 dollars—imports, 132,645. Business continued gradually but slowly to increase until the year 1829, when the produce of the Ohio Canal gave it a fresh stimulus. The result of that year exhibits an increase over the preceding of more than one hundred per cent. The number of vessels which arrived that season was 314. Of these, 90 were steam boats, and the residue sloops and schooners. The amount property exported, was $222,000; that imported,$568,000. The subsequent year, 1830, exhibits a corresponding increase.—The number of arrivals was 775; and the business in proportion. Last year, the value of commodities exported, may be at a million and a half; and that imported, at two. The number of arrivals at 1,070; of these, 470 were steam boats.—From the transactions of the present year, up to the middle of last month, the value of exportations, the present season, may be estimated at about *two millions;* and importations at *four millions seven hundred thousand dollars.* Thus, it will be seen, that the value of our exportations has increased, in the short space of eight years, from *fifty thousand* to *two millions;* and the importations from *one hundred and thirty two thousand six hundred and forty five* dollars, to *four millions seven hundred thousand dollars!* What a commentary is this upon the value of internal improvements and the resources of this young but flourishing country! It speaks volumes in favor of the growing importance and value of this trade. *It forms, however, when compared with the aggregate business of the Lake, and the upper Lakes, which are constantly pouring in their rich treasures upon her bosom, but an item of the vast amount.* This trade, which has been so rapidly augmenting, has, as yet, no settled rout, or established market. Hence arises the anxiety of the different States to secure, while practicable, the 'golden harvest.'"

Extract of a letter from an intelligent gentleman, the Superintendent of the Delaware Division of the Pennsylvania Canal, dated Sept. 18, 1833.

"It may be interesting to our friends in the west to learn that the Delaware Division will pay, this season, between 60 and 70,000 dollars."

*Accident.*—On the 10th inst. Mrs. Agnes Brown of Birmingham, aged about 58, was drowned in her own well. The verdict of the jury of inquest was, that *intemperance* was the immediate cause of her death!

*Homicide.*—On the evening of the 18th instant, at the race course, near Wilkinsburgh, *Richard Beatty*, of the Northern Liberties, was killed by a blow inflicted with a club, in the hands of Robert Haslet, a lad of about 14 years of age! The deceased had a shantee, where he vended liquors and refreshments—and in a scuffle which ensued, between him and some boys, who asked for articles gratuitously, he received the fatal blow. Three of the boys are now in prison, to await their trial.—*Allegheny Democrat.*

*From the United States' Telegraph, Sept.* 20.

## THE PUBLIC DEPOSITS.

Our readers will perceive, by the following extract from the Globe, that the kitchen cabinet has triumphed, and the deposits are to be removed.—It is generally understood that Messrs. Duane, M'Lane, and Cass, were strenuously opposed to the removal; but Messrs. Woodbury and Taney, in favor of it. The latter, backed by the kitchen cabinet, have prevailed, as they generally do, when they set their heart on a thing. There is but one opinion in regard to the future conduct of Mr. Duane. He will resign.

We were almost certain, upon the first appointment of Mr. Duane, that he would not be brought to give his sanction to the measures contemplated in regard to the public moneys. It is true, he was unfriendly to the bank; but, as an honest man, he could not give his sanction to measures useless, at the farthest, if not highly detrimental to the public interest.

The whole proceeding is in utter contempt of the public will, as expressed by the last Congress, in regard to the safety of the deposits. It is said, however, that a new cause is to be assigned for their removal. Their safety was too palpably a mere pretence. It is now to be represented as a punishment for some improper conduct on the part of some officers of the bank. An excuse, however, was never yet found wanting, for any act committed by those in power; nor was there ever any deficiency of hireling partisans, to applaud and defend any of their acts.

"We are authorized to state, that the deposits of the public money will be changed from the Bank of the United States to the State banks, as soon as necessary arrangements can be made for that purpose, and that, it is believed, they can be completed in Baltimore, Philadelphia, New York, and Boston, in time to make the change by the first of October, and perhaps sooner, if circumstances should render an earlier action necessary on the part of the Government.

It is contemplated, we understand, not to remove, at once, the whole of the public money, now on deposit in the Bank of the United States, but to suffer it to remain there until it shall be gradually withdrawn, by the usual operations of the Government. And this plan is adopted in order to prevent any necessity, on the part of the Bank of the United States, for pressing upon the commercial community; and to enable it to afford, if it think proper, the usual facilities to the merchants. It is believed, that by this means the change need not produce any inconvenience to the commercial community, and that circumstances will not require a sudden and heavy call on the Bank of the United States, so as to occasion embarrassment to the institution or the public.

The general anxiety which has been manifested on this subject, has made it proper to announce what is intended to be done: and we understand that the facts and reasons which have lead to this measure, will shortly be laid before the public.

It is believed that they will be found to be amply sufficient to justify the course which is now to be taken, in relation to the public deposits in the Bank of the United States."

GREECE.—A recent letter, from a friend in Athens, says—"We are delighted with all we have seen of the new government. They are giving the people as much liberty as they are capable of using to advantage. You may well suppose that we feel as if we had lived through a dark and stormy night, and had begun to spy the morning rays. In the division of the kingdom, and the mode of government of each province, district, and commonalty, there is sufficient latitude for the action of the people. The king appoints each of the ten governors, or rather prefects, but the people elect their councils. The king appoints each of the forty two sub prefects, but the people elect the councils of each. The people also elect the magistrate of each municipality, (or the mayor of each arrondissement,) and also the municipal council. This is a little more liberty than we have in the United States, I think."—*New York Spectator.*

The Courier Francais, of the 9th of Aug. says, in reference to Hayti—

"We learn that the government has received new proposals from that of Hayti, but they have not been acceded to. The government requires that positive guarantees should be given before any other negotiation is entered upon, in order that the execution of what may be agreed upon may be trusted to. The brig le Cuirassier is about to sail from Brest with despatches for P. au Prince, from the minister of Foreign Affairs, on the subject of this negotiation, and she is to wait for the answer of the Haytien government.—*Poulson.*

*Expeditious Traveling.*—Mr. Saxton has just obtained His Majesty's letters patent for a peculiar application of two pulleys to the propelling carriages and vessels for inland navigation, whereby very considerable velocities may be obtained by the aid of horses, or fixed engines; and such is the opinion entertained by the scientific world of the invention, that several engineers and others have entered into a subscription, with a view to lay down a short length of road, in order to put the invention fully to the test of a practical application. The prospectus of J. I. Hawkins, Esq., civil engineer, who is to superintend the undertaking, states, that by the application of Mr. Saxton's locomotive pulley to the purpose of establishing a cheap and safe mode of traveling at the rate of thirty miles an hour, by means of a horse walking two and a half miles an hour, or by fixed steam engines, from the outlay of moderate capital, compared with that required for similar conveyance by the use of locomotive steam engines.—*English paper.*

*From South America.*—Capt. Baldwin, of the barque Elizabeth, arrived this morning from Buenos Ayres and Rio, informs us that the weather at Buenos Ayres had been very cold, and rainy—the roads had become bad and quite impassible for the carts of the country to bring in the produce, consequently the articles of export had become scarce, and prices advancing. The quantity of Ox and Cow Hides exported from that market for the U. States, this year, is estimated at 100,000 less than the preceding year.

The Captain of the Elizabeth has seen Valparaso dates to the 25th May, which stated that two or three arrivals with sugar from Manilla and the Brazils, had supplied the market for the moment, and that prices had receded; and that very large exports of wheat had recently been made, say 50,000 Fanegas,—about 30,000 went for Lima, and 20,000 for Buenos Ayres—The same account further stated, that about 20,000 qtls. of copper had recently been taken out of that market, for the U. States, and for India, and that a small advance in price had taken place. The same conveyance bro't accounts from Lima to the 30th April, by which it appears that Wheat Flour was arriving abundantly from Chili, which was likely to keep that market well supplied with Bread Stuffs.—*Balt. Gazette.*

The London correspondent of the Commercial Advertiser says, the British are building larger ships than heretofore, in order to be prepared for the *Yankees*, should the two nations ever come to loggerheads. In such an event, the contest will be a tremendous one, for the mastery on the seas, where all future wars between the two nations must be decided. The idea of transporting armies of sufficient magnitude to operate with any success on the land, must be wholly out of the question by either party.

May the day be far distant,—or rather, may it never arrive.—*Poulson.*

*Cholera*—We hope we can now assure our readers, at a distance, that this fearful disease is really on the decline—only three fatal cases having occurred since our last publication, viz: A German child, about six years old, living with Mr Schoddinger, whose name we have not learned; a youth named Filler, aged ten years; and Mrs. Calvin.—The deaths from other diseases, chiefly fever, during the same period, have been as follows, viz: Mr. Schoddinger; Catharine M. Williams, aged four years; Mr. Reese; a child of Mr. Canada, aged four months; Margaret Baughman, aged five years; Mr. Everett B. Larned; and Mr. Lewis.—Few or no cases of serious indisposition were known to exist at twelve o'clock yesterday.—*Columbus (O.) Jour., Sept.* 21.

A negro man was lately tried and convicted at Charleston, by the Court of Magistrates and Free Holders, of the crime of poisoning a family of persons of his own color. Sentence of death was pronounced according to the law, but the Court unanimously recommended the prisoner to the clemency of the Executive, and suggested the commutation of his punishment to imprisonment for life, or *banishment.* Governor Hayne, however, refused to interfere, and decided that the law must take its course. It is so unusual for those who are vested with the pardoning power to refuse to accede to a recommendation made in this form, and the decision of Governor Hayne was so different from what would have been expected, from his amiable disposition in private life, that we were induced to read with some attention his Communication, published in the Charleston papers. From his analysis of the evidence, it appears that the crime was of an aggravated character, and clearly proved. As to *banishment*, he very properly reprobates the suggestion of letting loose such malefactors upon adjoining states.—*Nat. Gaz.*

The Marquis of Anglesea derives a revenue estimated at 15,000*l.* annually, from his property in the oyster banks, at Carlingford, which extend six miles.

The Albany Argus, of Monday, concludes a long article upon the means which it alleges the U. S. Bank is taking to put forth a candidate for the Presidency, with this query:

"By the way, whilst we are upon the subject, may we be permitted to ask, whether Mr. Webster drew upon the Bank for the expenses of his recent electioneering tour through this State and to the West; and if so, whether the draft was paid from the "secret service fund?"

Now, we dare say, if the Argus will put in the shape of an assertion, what it here by inuendo means to convey, that its editor may have an opportunity, for the third time, within a few short months, to proclaim himself, in his own columns, a slanderer; and after the lie has done its work, to express his regret at having—not believed—but circulated it. This compulsory recording of his own infamy does not indeed seem to affect the self complacency of this editor, and cannot therefore be expected to lead to self reform; but repeated admissions from the mouth of the culprit himself, that what for party purposes he utters, is unworthy of credence, will finally operate even among faithful adherents of *the* party, as effectual antidotes to his base inventions.—*N. Y. Amer.*

The communication by Rail Roads betwern the cities of Washington and New York will be effected much sooner than the most sanguine friends of the system could have contemplated—the only link of the great chain for which the means of construction has not been actually and fully provided, is the Rail Road between Baltimore and Port Deposit, on the Susquehanna river; and it will be seen that books of subscription, to obtain the aid necessary for that purpose, in addition to what is already subscribed, will be opened in a few days. The profits which will be derived from the immense numbers of travelers that must necessarily use the whole of the great thoroughfare between the Capital and the Metropolis (if we may be permitted so to call it,) of the United States, will render the stock of every part of it highly productive—and the present opportunity of obtaining an interest in it ought not to be neglected. —*Balt. Gaz.*

The cotton crops in Alabama have been much injured by the drought. One third of them, at least, is believed to have been cut off. In Montgomery, there is scarcely any of the article in market. Flour is extremely high and scarce.

The highest price offered at Charleston, on the 13th ult. for prime parcels of Upland Cotton was sixteen cents.—*Amer. Sent.*

The Right Rev. Leon de Neckere, the Roman Catholic Bishop of Louisiana, died yesterday morning, after an illness of a few days, and was interred this morning, in the church of St. Louis. Mr. Leon de Neckere was a native of Belgium.—He was endowed with talents of the highest order, and was possessed of all those necessary qualifications which enabled him to fill, with credit to himself and honor to the church, the high station he enjoyed. He will be long remembered and regretted by the citizens of this state.—*N. O. Cour. September* 3.

The whole number of deaths, during the month of August, are stated in the Bulletin at 435. During the month of August, and the first four or five days of September, the interments have been nearly or quite *thirty* every day.

*Breach of Marriage Promise.*—In Steubenville, Ohio, a few weeks since, a complaint was made by a black man against a *white lady*, for the violation of a matrimonial promise—damages laid to the amount of $8. The dark complainant's *heart* did not appear to be injured by the cruel refusal of the *fair* one, but wanted to recover the damages, that being the amount he paid her on closing the contract.—*Belvidera Apollo.*

A monument is now erecting near Munich in memory of the 30,000 Bavarians who perished in the disastrous campaign of Napoleon. The monument will be 130 feet high, of metal, fixed on a rock.

*Elopement in High Life.*—In a letter from a merchant at Pera, a suburb of Constantinople, it is stated that the Grand Seignor's favorite Sultana, the Empress Emildas, has eloped from the seraglio with a young Russian officer of the Chasseurs of Novogorod.—*London paper.*

*Constantinople*, July 10.—Two Turkish women who had been tempted to encourage the familiarity of two Russian officers, were seized in one of the places of assignation, but a very few days since, and both of them, as well as the woman (the owner of the house,) were tied in sacks, and thrown into the Bosphorus. One of the women is described to have been young and lovely.

*Extract of a letter from Portsmouth, Ohio.*

The cost of transportation on merchandise, &c. from the city of New York to Portsmouth is, on heavy articles, $2,29, and on light articles $2,34 per 100 lbs.—wheat costs 32 to 37 cts. carriage from here to Rochester New York.—*Kanawha Banner.*

*Mr. John Walton*, late of Moorland township, Montgomery county, Pa., died of lock jaw, on the 4th inst., occasioned by the severing of *a nail from one of his fingers,* while attending to an apple mill.

*Robbery.*—On Wednesday morning, (18th inst.) at New York, a young lady, from Springfield, Mass., who arrived in the steam boat Water Witch, from Hartford, had her reticule, containing $274, cut from her arm, while passing ashore in the crowd, by some adroit rogue, who succeeded in effecting his escape before the loss was discovered.

Rio de Janeiro papers mention that Capt. Jose Francisco de Paula Cavalcante de Albuquerque has been appointed Brazilian Charge d'Affaires to the U. States.—*Baltimore American.*

*New York, Sept.* 19.—Captain Gayzo, from Matanzas, reports that the yellow fever was very bad, and very fatal when he left.

We regret to state that letters were received in this city, yesterday, annuncing the death of Rev. President Storrs, of Hudson College, Ohio.

New counterfeit notes of the Philadelphia Bank have just made their appearance in that city. They are said to be so well executed that several of them were received at one of the banks.—*Baltimore American.*

*Banks.*—A correspondent of the National Intelligencer, has sent the editors a list of 705 Banks, in the United States; without including those of Kentucky, Illinois, Indiana, Missouri, and the Floridas, which he calculates would carry the whole number up to 800. He states that 123 banks have failed in times past.—800 banks will probably give over 10,000 Bank Directors and Officers. —*Poulson.*

——— Rothschild, of Paris, a distinguished patron of the arts, has just given 400*l* to Vanderbroken, the turner of Belgium, for a landscape, representing "Woodlands, at the turn of the leaf.—*Poulson.*

*Kanawha Marble.*—There has been shown us a beautiful specimen of native marble, obtained on the Elk river, in this county. It is of a light cream color, interspersed with veins of pure white. Some parts of the piece shown us were transparent while others were opaque—It is susceptible of a fine polish. We learn that it is to be obtained in considerable quantities, the extent not known.—*Kanawha Banner.*

MACHINE FOR SPINNING HEMP.—Mr. Joseph Westerman, of New York, (says the N. Y. Cour. & Enq.) has invented a machine, by which rope yarn is spun from hemp, without the process of hatchelling, and in consequence, without the usual loss of eight or ten per cent. from that cause.—The machine is simple, and its utility has been tested. It produces a yarn far superior in smoothness and strength to that produced by hand spinning; and the saving, it is said, would be fifty per cent. But it appears that the opposition of the operatives in the ropewalks at Brooklyn, N. Y., has prevented this machine from being introduced to use; and the inventor is about repairing to Russia, to introduce it into that country, under the patronage of the Emperor.—*Bost. Merc. Jour.*

Messrs. Key & Biddle have just issued the second edition, *revised and enlarged*, of Mr. Rush's *Memoranda of a Residence at the Court of London.* It is a beautiful octavo volume, handsomely bound, and dedicated by the estimable author to James Maddison, late President of the United States, to whom every tribute of veneration is due. In a short preface to this second eddition, Mr. Rush explains the motive and plan of his work. The favor with which it has been received, both at home and abroad, made a new impression necessary; and this must be large, if it consists of as many copies as the public are likely to require.—*Nat. Gaz.*

A letter from a gentleman in Lower Virginia, speaks of the unprecedented number of conflagrations in that part of the country during the present season—evidently, as it is stated, the work of incendiaries. The Richmond Whig sounds an alarm on the subject of the elopement of slaves, within the last eight months—"A gentleman, upon whose veracity we may rely with the utmost confidence, and who has paid considerable attention to these matters, informs us that they amount to at least 130, all valuable slaves, generally house servants, and persons who had been greatly indulged by their owners. They have generally been supposed to make their escape by water."

The New York Journal of Commerce says—"Some paper remarked, not long since, that while rogues were becoming very scarce in London, they were multiplying here at an astonishing rate; and wondered how the fact could be accounted for.—The explanation is easy. Lots of rogues have been shipped from London to New York. Whoever will look into the records of genteel villany in this city, within the last few months, will find that the perpetrators are almost all Englishmen, freshly imported."

*Cost of Advertising in English Papers.*—Mr Garrison, in a late letter from London, states that he published in the London Times a notice making less than three squares, for which he paid about *thirty dollars*, that being the regular charge —More than ten times as much as is customary to charge here. This arises from the heavy tax on newspapers in England.

*Another Forgery.*—A draft, signed by the Cashier of the National Bank of N. York, altered from $600 to $6,000, was presented at the Western Bank of this city, on Wednesday, and paid. The deception was detected. The draft was in favor of Thomas Townsend, the letters of which comprise all the letters formed by the alteration. A portion of the original writing was removed by chemical process, and the new letters formed were made in ink of a paler cast, as the alteration is plainly perceptible on the draft. A reward of $500 has been offered by the Western Bank, for the detection of the rogue.—*Poulson.*

The Hon. R. G. VAN POLANEN, whose death was mentioned under our obituary head on Saturday, was a gentlemen of distinguished worth and ability. He was a native of Holland, and has represented his country with credit and dignity in the four quarters of the world—in Europe, as the diplomatic agent of his government, in Switzerland and at some of the continental courts—in Asia, as the head of the Dutch Colony of Batavia—in Africa, as the incumbent of a high civil station at the Cape of Good Hope—in South America, in a similar situation at Dutch Guiana; and in North America as Consul General during the administration of Washington, and during that of Jefferson, as Minister. This was the last public office which he held. He was ardently attached to the independence and ancient republican institutions of his native country, and when Holland was merged in the empire of France, he refused to accept office under the new order of things; and, for the last thirty years, resided in this country as a private citizen, in the enjoyment of an easy fortune and literary leisure. At a late period of his life, he received from the present Dutch government the offer of the first office in the Colony at Batavia, which he declined on account of his ill health and advanced age. He was educated at one of the Dutch universities, and was learned in the classic authors, in the civil law, in the literature of his own country, of Italy, Germany, France, and England. With English literature, in particular, he had attained a minute acquaintance rare in a foreigner. He was acquainted in early life with Fox, Voltaire, and Gibbon, concerning the latter of whom he used to relate many agreeable reminiscences of conversations held at his weekly public dinners and *soirees*, while residing at Lausanne, where might be met at one period or other all the learned and accomplished men of Europe, who could afford to travel. In this country, his public duties had not only brought him into official connection, but personal intimacy with Washington, Hamilton, the elder Adams, Jefferson, and Madison. He was simple in his habits of life, and frugal in his ordinary expenditures, but highly liberal for all worthy objects. The mildness and gentleness of his manners made him beloved by all who had the fortune of his acquaintance. He was of the old school of Dutch scholars and statesmen, proud and fond of the ancient glories, manners, and institutions of his country, and an adequate representative of the principles, habits, and studies, which produced De Witt, Barnevelt, and Grotius.

The Detroit Journal estimates the increase of the population of Michigan from emigration, within the present season, at 10,000. The territory is in other respects rapidly improving; the quantity of produce, particularly wheat, raised this season greatly exceeds the yield of any former year. Internal improvement keeps pace with the progress of population, and territories that were covered with dense forests during the last war, are now divided up into cultivated farms.

From the Baltimore Chronicle.

The steam boat Norfolk, Captain Parrish, which left here last evening for Richmond, had on board a pedestal and obelisk, designed for the tomb of the framer of the DECLARATION OF INDEPENDENCE—it was plain, but the inscription on the pedestal was not as legible, perhaps, as it might have been. Inscription on the obelisk:

HERE WAS BURIED
THOMAS JEFFERSON,
AUTHOR
OF THE DECLARATION OF
AMERICAN INDEPENDENCE;
OF
THE STATUTE OF VIRGINIA
FOR RELIGIOUS FREEDOM; AND
FATHER OF THE UNIVERSITY
OF VIRGINIA.

On the pedestal—

## THE CONSOLATIONS OF SLEEP.

When that sweet shape lies hushed in rest,
Its shadow flies to me;
Or else each dream that haunts my brest
Hath caught its shape from thee.
I feel not then the ties that bind
To happier hearts thine own,
For either earth is left behind,
Or earth is ours alone.
Ah! Love can find a wider scope
For Joy than thou would'st deem.
Thou may'st forbid the Day to hope,
But not the night to dream.

## SHERIFF'S SALE.

*PHŒNIX BREWERY, AT KENSINGTON,*
PITTSBURGH.

BY virtue of a writ of Levari Facias, issued out of the court of Common Pleas of Allegheny county, and to me directed, will be exposed to sale on Saturday, the 12th of October next, at 10 o'clock, at the Court House, in the city of Pittsburgh, the following described property, to wit:

The following contiguous lots, or pieces of ground, situate in Pitt township, Allegheny county, being part of out lot No. 8, in the manor of Pittsburgh: one of said Lots beginning on the south side of the great road, or extension of second Street, and thence running Beale's and Wade's lots, southwardly, down to the corner of Williams' and Redmond's lots, so as to include the spring house, thence by said Williams' and Redmond's lot westwardly, a parallel line with said road sixty feet, thence northwardly a parallel line with the first line to the road aforesaid, and thence by the same eastwardly, sixty feet, to the place of beginning; with the following piece attached to it, and being part of the same, viz: Being twelve feet wide, and extending from the said lot westwardly to a thirty feet street, which runs between Thomas Greenough's and Edward Encell's houses, adjoining Williams' and Redmond's line: the whole being subject to a yearly ground rent of seventy two dollars.

ALSO—One other of the said lots or pieces of ground, beginning at the south east corner of Thos. Greenough's spring house, and running westwardly by the south wall of the said spring house, and containing, in a straight line, one hundred and forty two feet or thereabouts, to a locust post, thence southwardly, in a direct line with the end of Thos. Greenough's dwelling house, fourteen feet, thence westwardly a parallel line with the said dwelling house about twenty seven feet to a street which runs between Greenough's and Encell's heirs, from the great road to the Monongahela river, thence along the east side of said street to the said river, thence up the said river to a post, where a line drawn in a range with the east wall of said spring house would strike said river, and thence by the said line northwardly to the place of beginning: subject to a yearly ground rent of forty dollars. On which are erected a Brewery, Malt House, and the necessary offices, shops, and dwelling houses: the same being generally known by the name of 'Phœnix Brewery, in Kensington,' Pittsburgh.

Seized and taken in execution as the property of Samuel Dunn and Wm. O'Neil, at the suit of Henry Holdship, and to be sold by me,

WILLIAM LECKY,
*Sheriff of Allegheny Co. Pa.*

The above Brewery was in successful operation during the last year, and every thing attached to it, and necessary, is now in good repair.

☞Baltimore American, Philada. National Gazette, and New York American, will insert twice a week, three weeks, mark cost, and charge this office. Sept. 10, 1833.—2aw3w.

## CITY PROPERTY.

FOR SALE—A BRICK HOUSE AND LOT, situate on 5th street, between Market and Wood streets, occupied as a Tavern, by Matthew Patrick.

Also—Town Lot, No. 110, in the Borough of Allegheny, fronting 60 feet on Sandusky street, and running back 240 to Pitt alley.

The above property will be sold very low, and on a liberal credit. ☞Apply to John Snyder, Esq., at the Bank of Pittsburgh, or to

JOHN TOWNE.

Pittsburgh, Sept. 2, 1833.—tf

---

## *DOCTOR J. B. ROSE,*
## DENTIST,
(LATE OF REGENT STREET, LONDON,)

RESPECTFULLY informs the inhabitants of Pittsburgh and its vicinity, that he has taken an office, No. 80 Third street, next door to Dr. Burrell, where he performs all operations on the Teeth and Gums, in a style not to be surpassed.

☞*Natural and Artificial Teeth* set in the best manner, and at the most reasonable charges.—Also—*Porcelain Teeth, from a single one to a whole set.*

On the first appearance of Tarter or Scurvy, Teeth should always be cleansed, as the corrosion of the tarter will, in a short time, reach the roots of the Teeth, and they will eventually fall out—when, by attending to them in season, they might be restored, at a trifling expense, to their original beauty.

The operation of Plugging and Filing the Teeth, when decayed, is so truly important that it is impossible to recommend it too earnestly to the attention of the public. Thousands of the most useful Teeth, which otherwise, on account of their painfulness, would be sacrificed by extraction, may thus be preserved for many years. Doctor R., convinced that he can render benefits beyond all price to those who need his assistance, will wait upon families at their residence, if requested, and Teeth brought to a Pearl White at one sitting.

☞ As Dr. R. intends to remain in town but a short time, as early a call as convenient is advisable.

Dr. R. has for sale the British Antisceptic Dentrifice. This elegant Tooth Wash, with a very little use, eradicates the Scurvy in Gums, and prevents the accumulation of Tarter, which not only blackens, but loosens the Teeth, and accelerates their decay; removes the causes of offensive breath, preserves the healthiness of the Gums, and renders the Teeth beautifully white. Price 50 cents per Bottle.

## PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States---In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and other works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

D. K. MINOR,
Wall street, New York.

☞ Subscriptions for the above works, (where a specimen of each can be seen,) will be received at S. J. SYLVESTER'S,
Corner of Wood and Third streets.

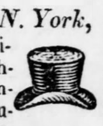
### SATIN BEAVER
## HAT MANUFACTORY,
NO. 6 ST. CLAIR STREET,
PITTSBURGH.

*WILSON & SMITH, from N. York,*



RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S
☞*WELCH MEDICAMENTUM.*☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,
From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.
Utica, Jan. 6, 1830.

*To Dr. Hitchcock.*—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

*ANTI-DYSPEPTIC ELIXER.*

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

### GEO. W. CARPENTER'S
COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

## VALUABLE PROPERTY
## FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river, where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

## To Baltimore and Philadelphia
*TRAVELLERS.*

THE LINE OF STAGES between Chambersburgh and Baltimore, on the Somerset and Mountpleasant route, has been doubled, and now runs DAILY, (Mondays excepted,) leaving Chambersburgh *at day-light* in the morning, and arriving in Baltimore, early the same evening.

Passengers reach Philadelphia, in this way, the second afternoon, from Chambersburgh, without the loss of any rest; taking the splendid STEAM BOAT LINES, which set out at 6 o'clock in the morning, [via CHESAPEAKE AND DELAWARE CANAL, a work well worth the trip to see.]
REESIDE, Owner.

In all cases where the passengers desire to reach Baltimore in time for the 5 o'clock steam-boat to Philadelphia, they can do so by leaving Chambersburgh at one o'clock in the morning, or immediately after the arrival of the Western Mail Stage. In this way, they arrive in Philadelphia, by eight o'clock the *second morning*, from Chambersburgh.

☞ When a load offers, the stage will run on Mondays. April 23, 1830.—tf.

## TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.
JOHNSTON & SMITH,
